## How to install Forex Cyborg EA

1. Open your MetaTrader 4 platform, click “File – Open Data Folder”.
2. Open the “MQL4” folder within the MT4 directory.
3. Find the “Experts” subfolder and open it.
4. Copy the downloaded Forex Cyborg EA file into the “Experts” folder.
5. In MT4, navigate to the “Navigator” window on the left side of the interface.
6. Right click anywhere inside the “Navigator” window and click “Refresh”.
7. Expand the “Expert Advisors” section.
8. Find the Forex Cyborg EA in the list, then drag and drop it onto your desired chart.
9. Adjust the settings in the indicator’s properties window if desired (the default settings are optimized for immediate use).
10. Click “OK” to apply the EA to your chart.
